

★Important Notice regarding collection★

Thank you very much for your continuing support.
We would like to inform you about the future transfer.

According to our company's terms and conditions, we have provided guidance based on the assumption that we will use the intermediary service specified by our company.

Continuing from last time, due to congestion at the port, it is difficult to bring machinery that has not yet been scheduled for shipping to YOKOHAMA (Yokohama Port, each port(Otsunaka)).

(*For machines that have already been delivered, they will be delivered at YOKOHAMA (Yokohama Port, each port(Otsunaka)) as usual.)

As an emergency response, we have set up the delivery port, “★SAITAMA★”.

For machines whose delivery location is “★SAITAMA★”, we will guide you as if the machine will be delivered to you at our company. (*It is not the port)

Moreover, our yard is extremely crowded as well. Regarding the delivery of the winning bidder, we will inform you of the desired pick-up date after confirming payment, so please note that we may not be able to accommodate your request for pick-up date.

(*Delivery to our yard may take 1 to 2 weeks depending on inventory location, transportation status, etc.)

Once the shipping schedule has been decided, for customers who wish to have their items delivered to YOKOHAMA, we will arrange transportation for an additional fee of ¥30,000.

Also, this time, we will be exhibiting the corresponding models at a discount of approximately ¥50,000 to ¥100,000 from the starting price. (*Excluding some models)
