Notice Regarding **Re-Auction** for Unsold Machines

Dear Valued Members,

We trust this message finds you in excellent spirits. We extend our sincerest gratitude for your continued patronage.

We're pleased to announce the introduction of a new system designed to further enhance the services we provide to our valued customers. This new system will include a Re-Auction specifically for unsold machines.

New System Launch Date:

10 minutes after the end of Block E of the 131st AKTIO Auction on

Wednesday, June 11, 2025

With this new system, we'll be holding a Re-Auction exclusively for unsold machines in the Z-block immediately after the main auction concludes. This new feature offers greater convenience, allowing you to bid on machines you may have missed or desired after the main auction.

【Important Notes:】

- Please refresh your screen or click the "Auction" button on your screen when the Z-block begins.
- Please be advised that we will not be selling machines that remain unsold even after the re-auction.

We kindly ask for your understanding that we cannot accept inquiries regarding such machines.

We are taking every measure to ensure a seamless transition for our customers. However, should you have any questions or require clarification, please don't hesitate to contact us.

We are committed to continually striving for your satisfaction and appreciate your continued support.

Sincerely,

After Block E finishes, there will be a time lag of approximately 2 minutes.

Please be sure to press the "Auction" button exactly 2 minutes after it ends.
